

# SPRING MUST-SEE

*Andorra la Vella in the spring is more beautiful than ever. Visit us from April to June and explore every nook and cranny of the highest-altitude capital in Europe. In spring you must not miss:*

A relaxed stroll along the river can become an unforgettable experience. Walk along the Passeig del Riu and relax under the shade of the cherry blossoms on both sides of the Valira River.

If you want to take home a nice souvenir of Andorra la Vella, take a photo of the traditional façades and doors of the buildings in the historic centre, the most iconic being the Casa de la Vall, the country's old parliament.

Come by the Barri Antic every first Saturday of the month and find all the farm products, crafts, flea market items and much more on offer at the Mercat de la Vall.

Immortalise your stay by taking photos of you with the Paris Bridge and the capital in the background.
