D.L. AND.366-2023

*This is Andy.
In case you haven't heard of him, he is a
"tamarro", a mythical creature that protects
nature in Andorra la Vella. Here in the
parish he is the stuff of legend!*

*Just like all "tamarros", Andy lives in another
world and travels to ours every
now and then via a portal.*

Here he cares for the meadows and forests,
looking after all the animals and fighting Bruticia
(the devilishly evil troll who enjoys polluting).

Do you want an example of just how evil she is?
One day, Bruticia threw poison into a river.
And what happened next? All the animals that
drank from the river turned blue and had the
hiccups for hours and hours.

Andy had to ask Lau - the "tamarro" from Sant Julià de Lòria - for help to make a potion to clean the river and cure the animals.

Since then, Andy frequently analyses the water just to be on the safe side.

In order to help him keep an eye on the land and hear whenever an animal calls for help, Andy has built an amazing device: the super hearing booster.

Thanks to this tool and the good sense of hearing that "tamarros" have, he can hear every little thing - even the fluttering of a butterfly's wings!

However, it is very difficult to watch over the whole parish even with such a great invention. That's why Andy needs the help of three capercaillies who lend him a hand: Xic, Tic and Nic.

If they see something that's not quite right and need to warn somebody about it, they play a special song on a magical instrument that can be heard all the way from the world of the "tamarros". When Andy hears the song, he knows that he needs to come quickly.

Xic, Tic and Nic do such great work that the "tamarro" has built a portal for each of them so that they can visit his world. That's quite the privilege!

*It's really important to work hard and help others,
but you can't just work all your life...
Andy also has a few hobbies.*

*He has the soul of a poet and the hand of an artist.
He loves writing and drawing too. Once he created
natural pigments and painted some flowers, which
he gave to a squirrel for its birthday.*

He also made a cake,
but in a moment of weakness
he gobbled it whole, so he
had to ask a friend to
make another one.

YUM-
YUM!

Nobody's perfect...
Not even the
"tamaro" with a
heart of gold!

TWEET-TWEET!

*Andy also loves a spot of DIY.
Do you want to see how
talented he is with wood?*

*If you walk along the path
that goes behind his portal,
you'll see some beautiful
birdhouses that he made so
that the feathered friends
he cures can get some
rest and recover.*

In fact, if you pay close attention, you can also see the trough where Andy analyses the water, the super hearing booster, the capercaillies' portals, the magical instrument and the painted flowers on the path too.

Don't believe me? Go have a look!

All you have to do is find the tamarro's footprints and they will lead the way.

Andy comes to life!
